

ARIVO Camera

The Heart of a 100% Digital Parking System

The Arivo Camera is the basis for our parking system, enabling the digitalization of barred and freeflow parking areas.

Our Arivo Camera is impressively reliable, boasting a detection rate exceeding 99.5 % — even under difficult conditions & at speeds of up to 70 km/h.

Advantages

- ✓ **> 99,5 % Recognition Rate**
Even in difficult conditions (such as dirt, rain or snow)
- ✓ **Flexible Installation**
Whether on the ceiling, the wall or free-standing
- ✓ **Weatherproof & Robust**
Certified to IP66 & IK10
- ✓ **Integrated into Existing Systems Possible**
Enables the reuse of barriers & roller shutters and thus saves costs
- ✓ **DSGVO-Compliant**

Arivo Camera in Detail

Our license plate recognition system **reads the license plate in just a few milliseconds**. As a vehicle approaches, the license plate is read between 50 and 200 times from a distance of just 40 meters. The license plate number is derived from these readings, rendering individual misreadings caused by reflection, shadows, obstruction, or unfavorable angles inconsequential.

This rapid reading capability enables the tracking of the vehicle in the image and the **determination of its direction of travel**. Our LPR technology is adept at recognizing country codes and **supports all European license plates**.

Mounting Options for Our Cameras

The cameras can be easily installed anywhere:

- Whether in a garage or on an outdoor parking area
- Whether on the wall, the ceiling or free-standing on a pipe upright.

Technical Information

- **Components:** LPR-Software, LPR-Cameras*, Compute Unit(s)***, (POE) Network cabling
- **Dimensions (HxBxT):** 28,5 x 13,1 x 9,7 cm
The measurements may vary depending on the camera positioning.
- **Color Code:** RAL9003
- **Certification:** IP66 & IK10
- **Power Supply:** PoE: IEEE802.3af
Class 3 compliant
- **Maximum Output:** 9W

Construction Services Provided by the Customer

- **Piping & Cabling:** According to Arivo cable diagram
- **Network Connection:** CAT7

Dimensions of the Arivo Camera

Factsheet Arivo Camera | Last updated: February 2025

*The number of cameras depends on the number of entrances and exits as well as possible alternating lanes.

**The number of compute units depends on the size of the parking area and the number of parking spaces managed.
