

ARIVO Cashless

Cashless Payment in Less Than 10 Seconds

Simply enter your license plate number, apply any available discounts, and pay effortlessly. Our cashless payment terminal makes it quick and easy to settle parking fees on-site.

With no vulnerable mechanical parts, it ensures reliable operation of your parking facilities. Thanks to its intuitive interface, large touch display, and fast processing, it's a favorite among users of all ages.

Advantages

- ✔ **Convenient, cashless payment**
In <10 seconds; pay with debit card, credit card, or mobile (via Apple Pay or Google Pay).
- ✔ **Intuitive operation & outstanding UX**
Featuring a large touchscreen, proximity and brightness sensors, modern design, and an intuitive user interface.
- ✔ **Plug & Play Setup**
Ready to use in just minutes: mount it, plug it in, and activate via auto-pairing — no on-site configuration needed.
- ✔ **Easy Maintenance**
No receipt printer or coin compartments. All components are modular and easy to replace — even the payment terminal.
- ✔ **Reliable Fall-Safe Operation**
Remote mass updates with fallback: if an issue occurs, the system automatically restarts using the last working version.

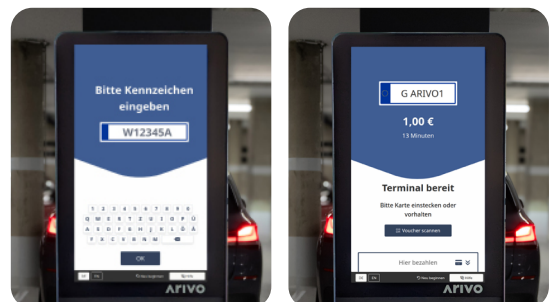

Hardware for the future of parking

Why shouldn't your parking systems be as easy to use as a smartphone?

Intuitive to operate. Autopairing like Bluetooth headphones. Automatic overnight updates. Engineered for stability, with no downtime.

Systems that just work. Devices that evolve with your needs.

Designed and produced in Austria.

Device Features & Functions

- € **Cashless payments** with Apple Pay, Google Pay or debit and credit cards (Mastercard, Maestro, Visa, VPay, Diners Club, Discover, JCB, Union Pay, Amex, Twint)
- 📞 **Built-in intercom system** with customizable emergency number, VoIP, dual-mic & beamforming
- 🔄 **Automatic security and maintenance updates** to proactively prevent system failures
- 📄 **Effortless discount redemption** by scanning QR-Codes on receipts
- 📄 **Digital receipts** instantly accessible by scanning a QR code at the terminal
- 🔧 **Autopairing** during setup or replacement, the device is automatically detected by the system and connected with just a few clicks

Flexible Mounting Options

The cashless payment terminal can be installed **indoors** and **outdoors**, provided there's adequate overhead protection. It offers versatile mounting choices - either

- freestanding with a pedestal or
- mounted directly to a wall.

Technical Information

- ➔ **Components:** powder-coated stainless steel housing, 32" touchscreen display, intercom system (dual microphone & speaker), payment terminal, QR code reader, proximity & brightness sensors, power & network cabling, pedestal or wall mount
- ➔ **Dimensions (H x B x T):**
102 x 52 x 18 cm (with wall mount)
182 x 52 x 18 cm (with pedestal)
- ➔ **Weight:**
32 kg (with wall mount)
68 kg (with pedestal)
- ➔ **Color codes:**
RAL 5014; RAL 7021 (housing)
RAL 9003 (pedestal)

- ➔ **Screen size (diagonally):** 32"
- ➔ **Certification:** IP54
- ➔ **Power supply:** AC 120-230V/50Hz
- ➔ **Maximum output.:** 280W
- ➔ **Ambient temperature:** -25°C to +45°C

Construction Services

- ➔ **Foundation:** 50 x 50 and 50 cm deep
- ➔ **Piping & cabling:** Network and supply lines according to the Arivo cable diagram
- ➔ **Network connection:** RJ45 with CAT7 cable
- ➔ **Roofing:** For outdoor installation
